41	Richard Vattay	CEO	WaterSoil Ltd.	Hungary	Manufacturing	Export, Joint Venture	Agriculture	We are looking for distributors in the agricultural input material distribution sector, having good retail network.	WaterSoil® Ltd. WS is an agricultural material producer company addressing one of the greatest limitations to global agriculture water scarcity. The Water Retainer is organic based liquid soil conditioner, retains the already existing humidity in the soil. Over the last 15 years, a team of scientists, agronomist, economist has developed this product. The treatment with the Water Retainer results that the crops can survive the drought period much longer 1-2 times longer in rain fed cultivation. The result of it is 14 – 37 yield increase. The farmer can save up to 50 of its irrigation water and cost in irrigated cultivation. The product is registered for use in organic farming. The Water Retainer reduces the impact of the climate change. Creating better humidity situation in the soil results increased microbiologic life activity, increases crop yield, better germination, reduces salinization and provides good ROI to farmers.
